BOCES Welcomes Andy Worden, Safety Officer

The Cayuga-Onondaga BOCES Office of Safety and Risk Management is pleased to introduce Andrew Worden as our new Safety Officer. Andy comes to us from the Syracuse area, where he has served as the Town of De-witt's Code Enforcement Officer for the past 27 years. During that time, Andy reviewed construction plans for town building projects, conducted code compliance inspections, gained knowledge of OSHA and occupational safety standard practices, sprinkler and fire alarm systems, emergency and evacuation planning, as well as FEMA critical incident command procedures.

Andy is very excited to join the BOCES Safety team, and he looks forward to meeting all of you.

Winter Recess Pesticide Notification May Be Required

School Districts that have applied pesticides [other than exempt applications described in Education Law §409-h(2)(e)] since the beginning of the school year, have an obligation to provide written notification to all staff and persons in parental relation within two days of the end of winter recess. The notification must include the date, location and product used for each application which required prior notification and for each emergency application made since the last notification (beginning of school year). The notification must also include a statement that schools are required to maintain a list of parents and staff members who wish to receive 48 hour prior written notification of pesticide applications, instructions on how to register to be included on the notification list, and the name and phone number of the school's pesticide representative.

PLEASE NOTE: IF NO APPLICATIONS (OTHER THAN PRODUCTS LISTED AS EXEMPT FROM PRE-NOTIFICATION) HAVE BEEN MADE SINCE THE BEGINNING OF THE SCHOOL YEAR, THE WINTER RECESS NOTIFICATION IS NOT REQUIRED.

Please contact your BOCES Safety and Risk Management Office with any questions related to Pesticide Notification or if you need the SED sample form for notification.
