WHY JOIN THE ROOFING INDUSTRY?

- **You do not need a special education.**
Most employers will train you and provide benefits!
- **You can make good money with roofing.**
Commercial roofing work never ends, and that means you can enjoy consistent pay as part of our team. If your workmanship shows that you do a great job, we would love to keep you working on every job we book.
- **Job Security.** Once you have started learning your trade you will always have a job. You will probably never lose your job to robots or to it being sent overseas.
- **Roofing is a great career for the right person.**
This job is right for craftsmen, mathematicians, engineers, techies, thrill seekers, artists, rock climbers, leak detectives and people that just love rewarding work. Roofers in the field wear many hats and you can specialize in any area. It's a career you can fall in love with.
- **Career Advancement.** The ability to work on commercial roofs of all shapes and sizes will help you enjoy a lasting career in this field.
- **Rewards.** Another great benefit of working with us at J&B Installations, Inc. is that you get to see your workmanship when the job is done. Whether you plan to shop at the retail center that is being built or you drive by a commercial facility every day, you'll know that your roofing skills are at-work for our clients.

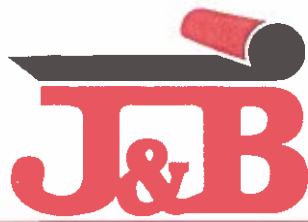

EXPECTATIONS:

- **Time & Workplace-** One of the primary things you can expect from working with us is that you'll need to be able to accommodate working flexible hours and be able to work in a variety of outdoor conditions. Because we provide roofing services for many types of businesses, it may be necessary for us to work around their schedule.
- **Workmanship-** At J&B Installations, Inc., we expect quality roofing work on every job because that's part of what helps us maintain our reputation for excellence. We will provide you with the knowledge and tools necessary to ensure you can complete commercial roofing work well.
- **Skillset-** If you have any prior roofing experience, that's great! However, commercial roofing is a little bit different, and you may be asked to add to your skillset in order to work for a commercial roofing company.

INSTALLATIONS, INC.

INDUSTRIAL & COMMERCIAL ROOFING CONTRACTORS

April 1, 2023

To: Guidance Counselor

Hello:

J&B Installations is a commercial flat roof company located in Skaneateles Falls, NY. We are in the business of doing flat roof repair and construction. We have been in business for over 40 years.

Currently, we are looking for 18 year old and older workers to fill our 12 crews. We have a lot of work this year, including 6 schools. No experience is necessary. They will be OSHA trained.

We start our employees out at \$20/hour and up and when working on public projects they are paid Prevailing wage, which is upward of \$56/hour depending on county.

This is manual labor, with several crew members ripping off roof, reinstalling roofs and trimming out edging.

If you have any students that may be interested in working for us, even if just as a summer job, we would be glad to meet with them. They must be able to travel around central New York to the work site, however most of our crew's car pool.

Thank you in advance for your assistance.
