

CULINARY ARTS

Our Culinary Arts students are always cooking up something special, and this month was no exception! Students worked hard to prepare two delicious meals for our community: the Spaghetti Dinner that supports our SkillsUSA chapter (served at our Open House), and the Consultant Committee Dinner.

CTE PROGRAMS OF THE *Month*

OUTDOOR POWER EQUIPMENT & POWERSPORTS TECHNOLOGY

Outdoor Power Equipment & Powersports Technology students recently visited Bibbens Sales and Service, a huge supporter of the program. The students got to see all aspects of the dealership, including sales, parts and accessories, and the service department. They also learned about some new technology on the new Polaris and Ski-Doo snowmobiles!
